

SD&F facilitated my goal of working with a single attorney. I was not shuffled between nor required to work with multiple attorneys. Still, the attorney with whom I worked, Joshua Shancer, was able to consult with his team and receive useful feedback as necessary.

Joshua Shancer is a brother in arms. He works to serve. His exemplary pursuit of excellence provides reassurance that is invaluable. By taking the time to understand the nature of his client's "trying times," he is able to manage such times. Attorney Shancer afforded me with peace of mind, allowing me to trust in the process with optimism.

With trust at the foundation of any great relationship, Attorney Josh excels by building it. It was clear as the case unfolded that it was not just his client that trusted him. As "master of tact," Josh brought wisdom and trusted-input into his encounters with everyone involved in the case. Whenever necessary, his innate litigation skill would successfully convey the very clear and professional case being presented via his analyses and filings.

Joshua Shancer's genuine camaraderie in conjunction with his keen understanding and execution of Family Law make him a force of nature and a pleasure to work with.
